# POHL BOSKAMP

Trade name: Nitrolingual Pumpspray

Date of issue: 2011/02/09

# 1. <u>Identification of the substance/preparation and of the company/undertaking</u>

Product details

Trade name

**Nitrolingual Pumpspray** 

Identification of the manufacturer / supplier / address

G. Pohl-Boskamp GmbH & Co. KG

Kieler Str. 11

D-25551 Hohenlockstedt

Telephone no.

+49 (0) 4826 59-0

Fax no.

+49 (0) 4826 59-109

distributor address

Wilshire Pharmaceuticals, Inc. 5511 Capital Center Drive

Suite 224

RALEIGH, NC 27606

UNITED STATES OF AMERICA

1-866-516-4950

Emergency telephone number

CHEMTREC: 1-800-424-9300 (USA and Canada)

1-703-527-3887 (Outside USA and Canada)

Use

Medicines for use to humans

2. Hazards identification

Classified as Hazardous according to EC and the criteria of NOHSC:1008(2004)

Hazard symbols

F

Highly flammable

R phrases

11

Highly flammable

3. Composition / information on ingredients

Chemical characterization

Mixture (preparation)

Hazardous ingredients

**ETHANOL** 

CAS No. 64-17-5 EC No. (ELINCS) 200-578-6

Concentration > 10 <30 %-b.w.

Classification R11

# POHL BOSKAMP (\*)

Trade name: Nitrolingual Pumpspray

Date of issue: 2011/02/09

#### **GLYCEROL TRINITRATE**

55-63-0 CAS No.

EC No. (ELINCS) 200-240-8

%-b.w. Concentration > 0.5< 1

Classification R10

> T+;R26/27/28 N; R51/53 R33

### GLYCERIDE, C8-10-mono-, di- and tri

91744-32-0 CAS No. 294-594-0

EC No. (ELINCS) %-b.w. < 5 Concentration > 1

Classification Xi; R38

### INGREDIENTS NOT CLASSIFIED AS HAZARDOUS

< 90 %-b.w. > 60 Concentration

#### Other Information

The pharmaceutical labelling complies with the pharmaceutical legislation.

#### First aid mesasures

#### General information

In case of persisting adverse effects, consult a physician. Remove contaminated clothing and shoes immediately, and launder thoroughly before reusing.

#### After inhalation

Remove affected person from the immediate area. Ensure supply of fresh air. In case of breathing difficulties give oxygen. Seek medical advice.

#### After skin contact

Wash off immediately with soap and water.

#### After eye contact

Separate eyelids, wash the eyes thoroughly with water (15 min.).

#### After ingestion

Seek medical advice immediately. Never give anything by mouth to an unconscious person.

Trade name: Nitrolingual Pumpspray Date of issue: 2011/02/09

## Fire-fighting measures

## Suitable extinguishing media

Alcohol-resistant foam; Extinguishing powder; Water spray jet; Carbon dioxide

## Extinguishing media that must not be used for safety reasons

Full water jet

# Special protective equipment for firefighting

As in any fire, wear self-contained breathing apparatus pressure - demand and full protective gear.

## Other information (chapter 5.)

Cool endangered containers with water spray jet. Suppres gases/vapours/mists with water spray jet.

## 6. Accidental release measures

### Personal precautions

Refer to protective measures listed in sections 7 and 8. Ensure adequate ventilation. Ensure adequate ventilation. Keep away sources of ignition.

### **Environmental precautions**

Do not discharge into the drains/surface waters/groundwater. Do not discharge into the subsoil/soil.

#### Methods for cleaning up/taking up

Pick up with absorbent material (e.g. sand, sawdust, general-purpose binder, kieselguhr). Send in suitable containers for recovery or disposal.

# 7. Handling and storage

#### Handling

### Advice on safe handling

Ensure adequate ventilation.

## Advice on protection against fire and explosion

Vapours can form an explosive mixture with air. Take precautionary measures against static charges. Keep away from sources of ignition.

#### Storage

#### Requirements for storage rooms and vessels

Always keep in containers of same material as the original one.

#### Further information on storage conditions

Keep container tightly closed in a cool, well-ventilated place. Recommended storage temperature: room temperature.

# POHL BOSKAMP

Date of issue: 2011/02/09

# 8. Exposure controls / personal protection

## Additional hints on technical system design.

Provide adequate ventilation. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain solvent vapours concentration below the OEL, suitable respiratory protection must be worn.

# National occupational exposure limits according to NOHSC

**ETHANOL**

# NITROGLYCERIN (NG)

TWA Ref 0,05 ppm

0,46 mg/m<sup>3</sup> Notices Sk

Personal protective equipment Respiratory protection

If workers are exposed to concentrations above the exposure limit they must use appropriate, certified respirators. Use half-mask model eith cartridge of air-fed, IOSH/MSHA approved.

#### Hand protection

Adhere to the professional organisation rule "Use of protective gloves". Appropriate chemicals resistant glove tested in compliance with AS 2161.

Before use, the protective glove should be tested in any case for its specific workstation suitability (i.e. mechanical resistance, product compatibility and antistatic properties).

Adhere to the manufacturer's instructions and information relating to the use, storage, care and replacement of protective gloves.

Protective gloves shall be replaced immediately when physically damaged or worn. Preventive hand protection (skin protection cream) recommended. Wash immediately contaminated skin. Design operations thus to avoid permanent use of protective gloves.

### Eye protection

Use chemical splash goggles and face shield.

#### Skin protection

Chemistry-usual work clothes.

#### General protective and hygiene measures

Do not eat, drink or smoke during work time. Keep away from foodstuffs and beverages. Avoid contact with eyes and skin. Do not inhale dust/fumes/aerosols. Wash hands before breaks and after work.

> 180 mg/kg

Species

rabbit

Reference substance

Glycerol trinitrate

### Experience in practice

Exposure of vapour concentration in excess of the stated OEL's may result in adverse health effects such as mucous membrane and respiratory system irritation and adverse effects on kidney, liver and central nervous system. Symptoms and signs include headache, dizziness, fatigue muscular weakness, drowsiness and in extreme cases, loss of consciousness.

Inhalations of vapours in higher concentration may lead to irritation of eyes, nose and respiratory tract. Repeated and prolonged skin contract may lead to defatting and irritation of the skin. Substance effects hypotensive.

## 12. Ecological information

## General information / ecology

There are no data available on the preparation itself. For components which are dangerous for the environment see section 2. Do not discharge product unmonitored into the environment.

# 13. <u>Disposal considerations</u>

#### **Product**

Ensure that collection, transport, treatment and disposal of waste product, containers and residue complies with all applicable laws and regulations. It is the responsibility of the product user or owner to determine at the time of disposal, whether the product is regulated as a hazardous waste.

### Uncleaned packaging

Packaging should be disposed off in agreement with the regional waste disposal company.

# 14. Transport information
